DETAILED ACTION

Election/Restrictions

Newly submitted claims 23-25 and 27-35 are now directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

New amended claims 23-25 and 27-35 no longer require an “ionically conductive medium” and thus constitute a divergent invention from the one previously presented.

Inventions I and II (claims 23-25 and 27-35) are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the different inventions I and II have different designs. Invention I requires an ionically conductive medium located in a cavity and insulated helical fixation means. Invention II does not require ionically conductive medium, insulation or helical fixation device. In fact, Invention II could employ a barb or suture as a fixation device.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 23-25 and 27-35 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Arguments

Applicant's arguments with respect to claims 23-25 and 27-35 have been considered but are moot in view of the presented restriction requirement. The claims 1,

3-5, 7-10, 14-15, 17-22 and 36, previously indicated allowable, will be allowed upon the canceling of withdrawn claims 23-25 and 27-35.

Allowable Subject Matter

1. Claims 1, 3-5, 7-10, 14-15, 17-22 and 36 are allowed.
2. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
